Dear Mr. Saunders:

Re: Initial Completeness Review of MR-1 Application, Mining and Reclamation Plan, Dolores #5 Placer Mine, Kearl-Saunders Corporation, PRO/019/008, Grand County, Utah

The Division has completed a preliminary review of your MR-1 permit application for the Delores #5 placer mine (Received July 23, 1986). While the proposed project is conceptually acceptable to the Division, several concerns have been identified which require additional examination.

As per your August 15th telephone conversation with Mr. Dave Wham of this office, the Division plans to complete the technical review of your application following our on-site inspection scheduled for August 21, 1986. Upon completion of the review, the Division will notify your office of any remaining deficiencies or requests for additional information.

Thank you for your cooperation in this matter. We look forward to meeting with you in Moab.

Sincerely,
